

Halloween Cat by Janice Blair

Once again, we thank our member and friend, Janice, who is constantly designing new patterns and sharing them with the lace world. This time her creation was to cover a logo on a bag. Janice shared it with lacemakers through the I.O.L.M. pattern CD 2011 and it is available on her [website](#).

Working notes:

Gutterman 100/3 or equivalent
5 pair bobbins black
1 pair orange

Hints: Do not replace pins after working interior sewings. This will keep the lace tighter when off the pillow. When working eyes add orange thread and carry black pairs to other side within the orange leaves.
